

## Advanced\_Grade-7\_Data Handling

### Single and Double Bar Graphs

Use the graph to answer:

1. What is the population growth in the year 2002? \_\_\_\_\_

2. What is largest population growth? \_\_\_\_\_

3. What is population in the year 2000? \_\_\_\_\_

4. What is the least population growth? \_\_\_\_\_

5. What is the difference in population in year 2006 and 2000? \_\_\_\_\_

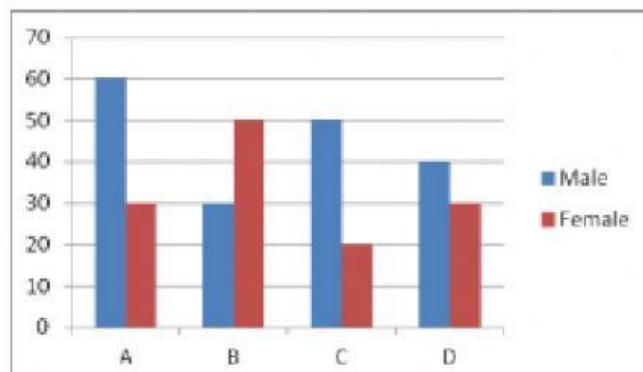

6. What is the number of males at location B? \_\_\_\_\_

7. What is the number of females at location C? \_\_\_\_\_

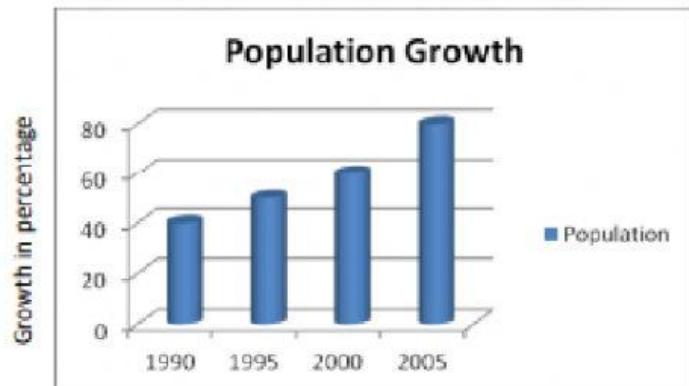

8. What is difference in number in males and females at location A? \_\_\_\_\_

9. What is the number of females at location D? \_\_\_\_\_

10. What is the number of males and females at location B? \_\_\_\_\_

Use the graph to answer:

1. What is the population growth in the year 2000? \_\_\_\_\_

2. What is largest population growth? \_\_\_\_\_

3. What is population in the year 1995? \_\_\_\_\_

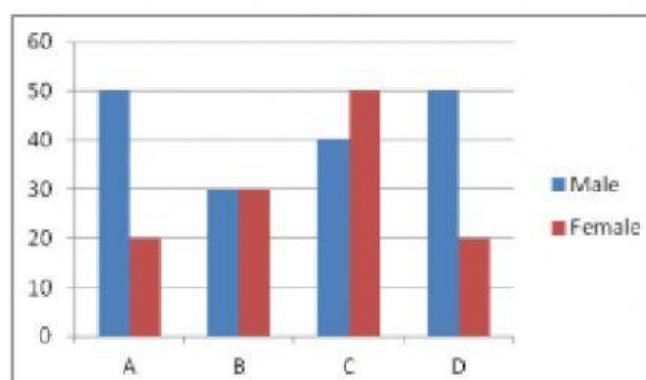

4. What is the least population growth? \_\_\_\_\_

5. What is the difference in population in year 2000 and 1990? \_\_\_\_\_

6. What is the number of males at location C? \_\_\_\_\_

7. What is the number of females at location B? \_\_\_\_\_

8. What is difference in the number of males and females at location D? \_\_\_\_\_

9. What is number of females at location A? \_\_\_\_\_

10. What is the number of males and females at location B? \_\_\_\_\_
