

Concept CW_Grade-6_Geometry

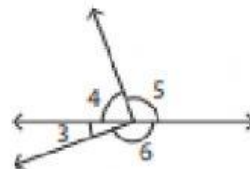

Intersecting Lines and Pairs of Angles

A) Identify all the linear pairs in each figure.

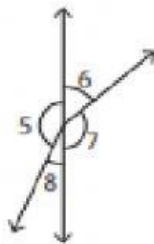

1)

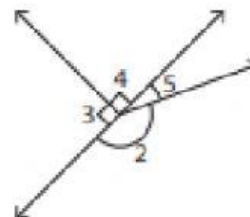

2)

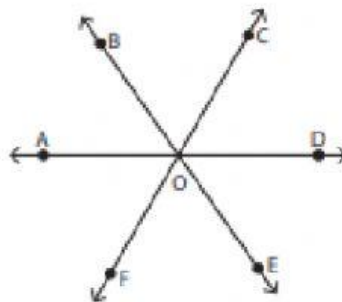

3)

4)

B) Identify the angles that make a linear pair with each specified angle.

1) $\angle AOB$

or

2) $\angle FOE$

or

3) $\angle DOC$

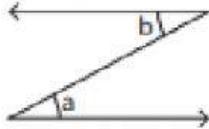

or

4) $\angle AOF$

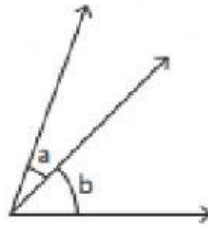

or

A) State whether the given pairs $\angle a$ and $\angle b$ are adjacent or not.

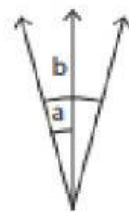

1)

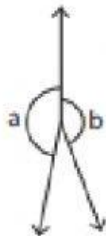

2)

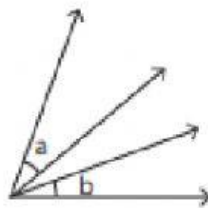

3)

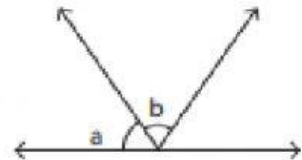

4)

5)

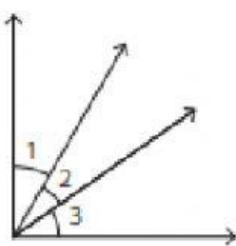

6)

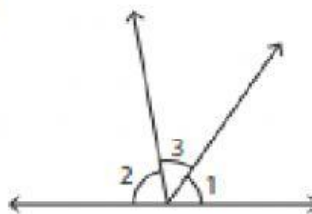

B) Identify the two pairs of adjacent angles in each figure.

1)

2)

3)
