Stories from The Past

Legends, fantasy stories, spooky stories; they are all part of culture. Every legend or unreal tale has an element that isn't true, but it relates a little to reality. These stories are known because older people transmit them to younger generations, and in other cases, younger people tend to create myths or new stories based on their reality. These modern myths, or urban legends, become popular on the internet and social networks. Nevertheless, it's absolutely important to know about the origin of each tale, and keep in mind that they are only a story, something that isn't true at all. These amazing stories are part of our identity. It's great to know about them and share them with other people.

b) Autorregulación:

1. What are the most famous legends in your city?
2. What do you know about it?
3. Are you superstitious?
4. What did you do if you see a strange thing?
