Lions and Whales

In some ways lions and whales are the same, and in some ways they're different.

Lions live on land. They have fur on their bodies to keep them warm. They have four legs and can run fast. Whales live in the ocean. They have skin on their bodies. They don't have legs. They have fins to help them swim.

Think

How are lions different from whales?

Lions and whales are both mammals. They have tails and big teeth. They catch and eat other animals. Their babies are born alive, and they drink milk from their mothers.
