Multiply using repeated addition and learn multiplication tables and facts

CW _ Multiplication as Repeated Addition

Write a multiplication equation to show how you can find the total number of squares. The loops in each problem contain the same number of squares.

Loops	Equation
example 	$2 \times 5 = 10$
1 	
2 	

3

4

5

1 Write the multiplication and division fact family that belongs with each array.

example

$$\underline{5} \times \underline{4} = \underline{20}$$

$$\underline{4} \times \underline{5} = \underline{20}$$

a

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

b

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$
