Telling the Time

Times

- Read the times.

7.20 = *seven twenty* 4.10 = *four ten* 11.06 = *eleven 'oh' six*

We can also use 'to' and 'past'.

4.50 = *ten to five* 3.20 = *twenty past three*

'A quarter' is 15 minutes, and 'a half' is 30 minutes.

5.45 = *a quarter to six* 6.15 = *a quarter past six* 6.30 = *half past six*

(Note: in American English 'before' and 'after' are common.)
