

T1.2 - Day 1 - Daily Practice

Name: _____

Date: _____

I can subtract integers without a calculator.Simplify each expression by subtracting

1. $7 - 4$

5. $4 - (-2)$

2. $-8 - (-5)$

6. $1 - (-1)$

3. $-7 - 3$

7. $-5 - 5$

4. $-4 - (-7)$

8. $-9 - 1$

-10**3****2****-10****-3****6****-10****13**

Simplify each expression

$$(-3) - (-9) + 8$$

Name the first math problem. _____ =

Name the second math problem _____ =

9. $5 + (-2) - (-7)$

Name the first math problem. _____ =

Name the second math problem _____ =
