Activity

Select one topic and Google it. →

How many results did you get?

Now, use Operator **AND** to add a new topic. Then, write the new total.

new topic

New total

Moment to use operator **OR**. Change **AND** for **OR** and write the new total. What is the difference of results?

total

difference

Time for operator **NOT**. Use it to get a new total on your research. After this, write a reflection on what you learnt.

Total
