

Unidad Educativa Arco Iris
PARTIAL TEST
ENGLISH
2022 - 2023
FORM ACD. E # 03

1. INFORMATIVE DATES

NAME: _____

GRADE: 6TH DATE: _____

TEACHER: Lcda. Ivonne León

QUIMESTER: 1ST PARTIAL: 2ND

1. Read the text.

It's All Music

People made music before they could write about it. One of the oldest instruments ever found is more than 42,000 years old. It's a flute. Instruments like flutes are called *wind instruments*. The music comes from moving air, usually when a person blows into the instrument. Each wind instrument has a shape that makes its sound different. Some have holes for fingers to cover. Others have buttons to press. Holes and buttons let you change the way the air travels to change the notes.

Another way to make music is with strings. When you pluck a string, it makes a note. String instruments have thick or thin strings and long or short strings to make different notes. The shape of the stringed instrument also helps to make the sound. If the shape is bigger, the music sounds lower. Musicians often use a bow to play string instruments. The bow is a piece of wood with hairs or a string stretched between its ends. Musicians slide it over the strings to make sounds.

You can also make music by hitting or shaking something. Percussion instruments can be made from many things. That's because most things make a sound when you hit them. The air inside the instrument makes the sound louder. A drum is a percussion instrument, but instruments with strings can be percussion instruments, too. When you hit strings, you can make music. A piano is a percussion instrument. When you press the piano keys, hammers inside the piano hit the strings to make music.

2. - Choose TRUE or FALSE

- A 42,000 year old guitar is one of the oldest instruments ever found. **TRUE** **FALSE**
- Music from wind instruments comes from moving air. **TRUE** **FALSE**
- Different sizes of strings make different notes. **TRUE** **FALSE**
- Musicians blow into a bow to make a sound with a string instrument. **TRUE** **FALSE**
- Percussion instruments are instruments you hit or shake. **TRUE** **FALSE**
- A piano has hammers inside to make music. **TRUE** **FALSE**

3. - Choose the musical instruments mentioned in the story.

saxophone

flute

guitar

drums

violin

piano

4. - Choose the best answer to complete the sentence.

- A drum is a _____.
- If you press a key on a wind instrument, the sound changes because _____.
- An empty space inside percussion instruments makes the sound _____.
- Some string instruments are played with a _____.

5. - Write the past participle of the following verbs.

- Play:
- Go:
- Perform
- Hear:

6. - Drag the instruments with their types.

Wind	String	Percussion

saxophone

flute

guitar

drums

violin

piano
