Look at the posters below.
Do you know any of these Tv-shows?

Friends is a 90's Comedy TV show. It's about 6 friends who go through every life experience - love, marriage, divorce, children, heartbreaks, fights, new jobs and job losses and all sorts of drama.

What is your favourite tv-show?
Can you tell me something about it
and some of the characters in it.

Now look at the photo below.
Do you know this tv-show?

read the text and answer the questions

- Which characters in the show work together?
- Which characters live together?

THE BIG BANG THEORY

is a TV comedy about a group of friends in Pasadena, California. Leonard and Sheldon are scientists. They work together and they share a flat too. Two other friends from work, Howard and Raj, often visit them. Penny lives opposite. She works in a restaurant. She likes Leonard and Sheldon, but they are very different from her. A lot of the humour comes from this contrast. It's a simple idea for a show, but millions of people watch and enjoy it every week. Clearly, people love shows about friends!

LEARN THIS! Present simple (affirmative)

We use the present simple to talk about:

- a** something that happens regularly, always or never.
- b** a fact that is always true.

- 3** Read the **Learn this!** box. Then complete the table below. The missing words are in the text in exercise 2.

Present simple	
affirmative	
I work.	We work.
You work.	You work.
He / She / It ¹ _____.	They ² _____.
