

ПРИКЛЮЧЕНИЕ В ПОДВОДНИЯ СВЯТ

ИЗВАЖДАНЕ НА ЧИСЛА ОТ ВИДА 17 – 14

1. $14 - 12 = 14 - 10 - \square = \square$

Diagram showing a number line from 10 to 14. A bracket above the line spans from 10 to 14. Below the line, the number 10 is circled, and the number 2 is circled. An arrow points from the 2 to the empty box in the equation.

$17 - 13 = 17 - 10 - \square = \square$

$15 - 11 = 15 - 10 - \square = \square$

$19 - 15 = 19 - 10 - \square = \square$

2. $6 - 3 = \square$

$8 - 6 = \square$

$9 - 2 = \square$

$16 - 13 = \square$

$18 - 16 = \square$

$19 - 12 = \square$

3. $17 - 13 = \square$

$16 - 14 = \square$

$15 - 12 = \square$

$\square = 19 - 11$

4. $\square > \square < \square$

$16 - 12 = \square$ 14

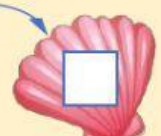

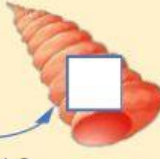

3 $\square$ 18 - 15

$14 - 10 = \square$ 14 - 11

5. $15 - 12 = \square$ $\square + 15 = \square$ $\square - 6 = \square$ $\square + 7 = \square$

6. Ники имал 16 рибки. Подарил 11 от тях на сестра си. Колко рибки са му останали?

Решение:

Отговор: рибки
