

TASK 15:

For questions 1-6, look at the approaches and the three statements listed A, B and C. Two of the statements match the approach. One does NOT. Choose the letter (A, B or C) of the statement which does NOT match the approach.

1. Total Physical Response (TPR)

- A) Students hear dialogues then repeat them.
- B) Students focus on understanding before speaking.
- C) Students move around the classroom to carry out instructions.

2. Content and Language Integrated Learning (CLIL)

- A) The teacher focuses on developing learners' cognitive skills.
- B) Students often do activities that focus on language accuracy.
- C) Language is used to communicate about school subjects.

3. Lexical approach

- A) Grammar is less important than vocabulary.
- B) Each vocabulary item must be learned by heart.
- C) Students need to become aware of chunks of vocabulary.

4. Presentation, Practice, and Production (PPP)

- A) Teachers need to focus learners' attention on new target language.
- B) Students need opportunities to get language right before they experiment.
- C) Students always start learning a new piece of language by doing a task.

5. Grammar - Translation method

- A) Language must be analyzed in order to learn it.
- B) Drills and pattern practice help us learn structures.
- C) Exercises help us learn rules.

6. Task based learning

- A) Tasks must be done after students have practiced target language.
- B) The teacher does not control the language that students use in tasks.
- C) Tasks aim to show students what language they need to learn.
