

**REMEDIAL SUMMATIVE TEST 2
YASPORBI 1 PRIMARY SCHOOL
ACADEMIC YEAR 2022/2023**

Subject : Mathematic

Theme : Multiplication, Division, and Word Problem

Day, Date : _____

Name : _____

Class : 3 - _____

Basic Competence:

3.1 Menjelaskan sifat-sifat operasi hitung pada bilangan cacah.

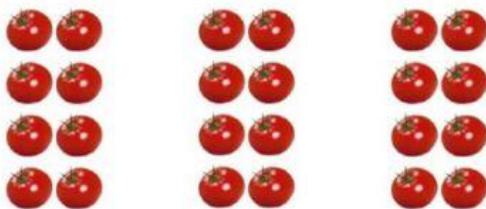

INSTRUCTIONS:

INSTRUCTIONS:

1. Pray before work on problem.
2. Write your full name.
3. Read the question carefully and then do a considered easy.
4. Write the answer with a clear, clean, easy to read
5. Double check your work before it is submitted to the superintendent.

I. Choose the correct answer by crossing (x) A, B, C or D as the correct answer !

1. Look at the picture!

The correct multiplication operation based on the picture is

a. $2 \times 8 = 16$ c. $3 \times 8 = 24$
b. $3 \times 8 = 16$ d. $4 \times 8 = 24$

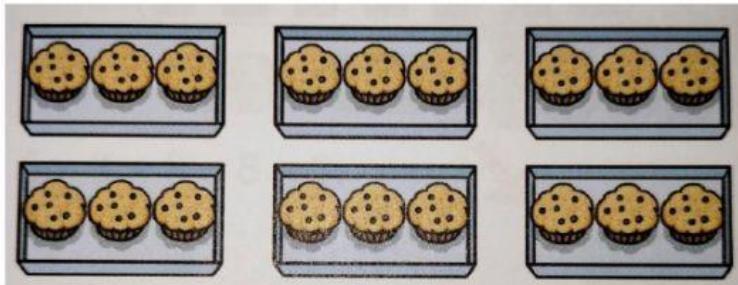

2. The correct picture that describe 5 groups of 7 is

3. Two (2) correct statement about multiplication operation are
(Choose 2 correct answer by give checklist (✓) in the box)

- $4 + 4 + 4 + 4 + 4 = 20 \rightarrow 4 \times 5 = 20$
- $5 + 5 + 5 + 5 = 20 \rightarrow 4 \times 5 = 20$
- $6 + 6 + 6 + 6 + 6 + 6 + 6 = 42 \rightarrow 6 \times 7 = 42$
- $6 + 6 + 6 + 6 + 6 + 6 + 6 = 42 \rightarrow 7 \times 6 = 42$

4. Ms Dea make 18 muffins cake and put on tray. Look at the picture below:

We can describe the picture in two ways, they are
(Choose 2 correct answer by give checklist (✓) in the box)

- There are 3 muffins on each tray.
- There are 6 trays of muffins.
- There are 9 muffins left.
- There are 12 muffins altogether.

5. There are 10 students in Mr. Adam's class. Each student has 5 dollars. How much money is there in all?

To solve the problem mathematic operation, we should be used is

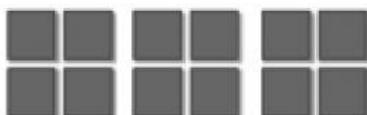

- a. Addition
- b. Subtraction
- c. Multiplication
- d. Division

6. $6 \times \text{?} = 48$

The correct number to complete the operation is

- a. 2
- b. 4
- c. 6
- d. 8

7. Look at the squares:

Which of the following best describes the total number of squares?

- a. 2 groups of 4
- b. 3 groups of 4
- c. 4 groups of 4
- d. 5 groups of 4

8. Sydney helps her mother with the garden for 3 days. They picked 7 tomatoes each day.

How many tomatoes do they have in total?

- a. 12
- c. 21
- b. 18
- d. 28

9. There are 4 small pizzas in each box. Mrs. Owens buys 8 boxes. How many pizzas does she have altogether?

- a. 4
- b. 12
- c. 24
- d. 32

10. The correct statement that shown multiplication problem are

(Choose 2 correct answer by give checklist (✓) in the box)

- If Clara has 3 bags of jelly beans with 20 jelly beans in each bag, Clara has 60 jelly beans.
- Shelly has 7 cookies in each of her 4 bags. Shelly has 28 cookies altogether.
- Malcolm is a member of the track team. He runs 7 laps each practice. If the team practices 5 days per week, it means Malcolm run 30 laps in one week.
- On Field Day, the 3rd grade class splits up into 8 teams of 5 students each. There are 24 students are in the 3rd grade class.

11. Ms. Brown has 18 students in her class. She splits them into 6 equal groups. How many students does she have per group?

The operation should be used to solve the problem is

- a. Addition
- b. Subtraction
- c. Multiplication
- d. Division

12. Pay attention to the picture!

Which division fact is illustrated in this picture?

- a. $12 \div 5 = 3$
- b. $12 \div 3 = 5$
- c. $12 \div 4 = 3$
- d. $12 \div 2 = 6$

13. Which story could be solved with $64 \div 8$?

- Tim used all but 8 of the 64 nails. How many nails were used?
- Mrs. Pemberton bought 64 bags of hotdog buns for the picnic. Each bag had 8 buns. How many bags did she need?
- Alex made 64 placemats. If he makes 8 more, how many placemats will he have made?
- Jeff has 64 ml of juice. Each glass holds 8 ml. How many glasses can he have?

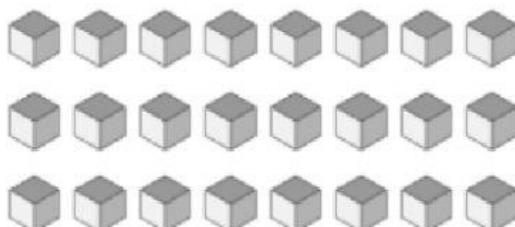

14. \$54 is shared equally among 6 people. How much money does each person receive?

- a. \$9
- b. \$8
- c. \$7
- d. \$6

15. Tammy picked 56 flowers. She placed them equally into 8 vases. How many flowers are in each vase?

- a. 4
- b. 5
- c. 6
- d. 7

16. Leia needs to place the blocks shown into big boxes.

How many boxes does Leia need if she wants to put 8 blocks in each box?

- a. 3
- b. 4
- c. 6
- d. 8

17. $63 \div 9$ is

- a. 5
- b. 6
- c. 7
- d. 8

18. $72 \div 8$ is

- a. 6
- b. 7
- c. 8
- d. 9

19. $49 \div 7$ is

- a. 6
- b. 7
- c. 8
- d. 9

20. What is the missing number?

$$40 \div \square = 5$$

- a. 8
- b. 9
- c. 10
- d. 11
