При переносе ответов на задания **5** и **6–11** цифры или буквы записываются **без пробелов, запятых и других дополнительных символов**. Каждую цифру или букву пишите в отдельной клеточке в соответствии с приведёнными в бланке образцами.

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов A–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. Where can we see the best Gzhel collection and see how it is made?
  2. Who can become a Gzhel artist?
  3. What do we call Gzhel?
  4. What is the technique of Gzhel painting?
  5. What is the traditional Gzhel ceramics design?
  6. What is the origin of the word Gzhel?
  7. How were the first Gzhel products used?
- A. Gzhel is a famous type of Russian ceramics. It comes from the region with the same name, which is situated about sixty kilometers away from Moscow. Gzhel is not one place, to be exact. There are about 27 villages in the area which are involved in Gzhel ceramic production. The place can be easily reached by railroad and it is often visited by tourists.
- B. It is believed that the place where Gzhel ceramics is produced was named after the river Gzhelka, a small river flowing through the area. However, linguists still argue about where the word comes from. Some of them say it has Baltic roots. Others claim that the name is connected with the technological process. The word Gzhel is similar to an old Russian word which means burn. Indeed, the clay should be burnt to become hard before it is good enough for pottery.
- C. The clay production in Gzhel started to develop in the 17th century when the Russian monarch ordered the delivery of different sorts of clay to Moscow. Gzhel clay was found to be the best for making pots and containers for pharmacies. The doctors and pharmacists valued it a lot. They preferred to keep most of the medicine and herbs in ceramic pots to keep them fresh and effective for a long time.
- D. Gzhel ceramics can be easily identified by its beautiful white and blue coloured decoration. White means pure snow and moonlight. Light and dark blue symbolize the calm sky and rivers. Though the images on ceramics are usually flowers, they are all unique. Every item is a handmade picture with a unique combination of lines. Blue and white Gzhel ceramics are well-known all over the world.

- E. You may think that Gzhel painters create their works freely, using their imagination. Although the talent of an artist and creativity are certainly important, the painter needs to follow a very strict technological scheme. Each ornament represents an image or a story that is given a code. All the codes are listed in catalogues and kept in the factory library. Technologists use catalogues to modernize production and organize training for new painters.
- F. The Gzhel museum is a special attraction. The finest items from the 15th century to the present are displayed there. The collection of the museum contains about two thousand pieces and presents a great variety of bowls, vases, tea sets, toys and statuettes. The place is good for a family day out – apart from enjoying the displays and buying souvenirs you can watch the production process or take classes in sculpture or painting.

### **The Best Job in the World**

Have you ever heard of the Great Barrier Reef? It is the world's largest coral reef system along the eastern coast of Australia. In February 2009 an extraordinary position was advertised by the Australian Tourism Office. The advertisement ran that the Great Barrier Reef needed a caretaker for half a year. It was for a special person who would look after the Reef.

The job offered a large salary, free accommodation in a luxury villa, and transportation there and around the islands. All expenses would be paid: the winner wouldn't need to spend any extra money on anything.

The job's duties were pretty simple. You could only dream of such requirements. First, the person had to speak English and swim well. Second, on the island his responsibility included writing a weekly Internet blog. The job description also required the successful applicant to explore the islands of the Great Barrier Reef, swim, make friends with the locals and generally enjoy the tropical climate and lifestyle. A real dream!

Within the first 2 days of the contest, the tourism office received more than seven thousand online applications. All told, 34,000 people of all different nationalities applied. The candidates were interviewed and the winner was Ben Southall from the UK.

Ben greatly enjoyed the dream job he had got. He realised that people knew very little about our planet and its treasures. Living in big cities, they forgot how important the flora and fauna of this world were. Every time Ben went outdoors, he could discover something new. Ben's life on the island was not just fun. It was very busy, busier than most people imagined. He worked seven days a week and up to 19 hours a day. The Best Job included travelling to over 60 islands of the Reef almost every day. It was not just looking after the Reef, Ben had a lot of meetings, press conferences and interviews. He was getting a lot of attention all the time and he couldn't get away from it. That was probably the hardest part of the job.

Moreover, any adventure has a certain degree of risk. Swimming and diving on the Great Barrier Reef was not different. Ben had to deal with whales, sharks and other huge sea creatures. Surprisingly, the most dangerous thing was a small jellyfish about the size of a little finger. It's considered to be extremely poisonous and Ben was stung by it. He had to spend a couple of days in hospital but luckily recovered after a course of antibiotics.

Ben often says that the project has taught him a few valuable lessons. He said, "I've learned that we get one life on earth so we have to use it. There'll

always be other countries to visit, other people to meet and other adventures to have. This is what I wish to do. I'm planning to go to Asia in a few years' time."
