

7 **IDENTIFY** Complete each excerpt from the podcast with a phrasal verb from the box. Change the tense of the verb as needed. Listen again if needed.

- A: So, you've actually ¹ a way to record dreams on video. Is that really possible?
- B: It certainly looks that way, and I'm really excited about it. Researchers have ² many different approaches over the years,...and now we've finally ³ a method that works.
- A: Yes. I'm sure you and your team ⁴ a lot together before you ⁵ finding success.
- B: We sure did. Sometimes there were differences of opinion, but we ⁶ things together. They're very dedicated, professional researchers.
- A: Could you ⁷ the basic process for our listeners? How do you ⁸ recording someone's dream?
- B: Well, we use technologies like EEG and magnetic resonance imaging, or MRI, to observe the brain as it processes images.... We ⁹ these machines a supercomputer, which can then create a video of whatever a person is dreaming about.
