

Conditional statements

Activity 9

Demonstrate your understanding of conditional statements and relational operators.

Create conditional statements for each case description in the table below. Then, state if the result of each statement is True or False.

Case description	Conditional statement	True or False
Is a kbyte equal to 12 bits?	<code>kbyte == 12</code>	False
Is a kbyte less than 500 bytes?		
Is a mbyte not equal to 0?		
Is a gbyte equal to a mbyte ?		
Is a mbyte less than 500 bytes?		
Is a gbyte greater than a mbyte ?
