## PINDUL CAVE

Pindul Cave is a cave formed by karst with underground river. It lies in a village called Bejiharjo, Karangmojo. It is located about 7 kilometer north-east of the city center Wonosari, Gunungkidul. Pindul is a cave that becomes part of the team of seven caves with underground river streaming within. It is a great palce to do a task integrating physical body rafting and also caving, called cave tube.

It will take you about 2 hours to get there if you start from Yogyakarta. You can go there using a private vehicle or public transportation. You only need Rp 45,000 to enter the cave, but the price does not include rafting equipment such as clothing and life jackets. Hence, if you wish to participate in these activities, you must pay for equipment rentals and a guide. The most effective time to do cave tiube remains in the morning around 9 or 10 a.m. that the water will not be too cold.

Visitors can see some beautiful ornament in the task, such as crystal, moonmilk, stalactites, and stalagmites. The stalactites and stalagmites which were thousand years of ages will welcome in front us. On some parts of the top of the cave, we can see natural photo as bats living there. When we reach the center of the cave, it is a place resembles vast pool where visitors take a remainder, swim, and hop from above.
