FREE TIME & HOBBIES

**FUMIKO**

I have to study really hard for school. That means I haven't got much free time for hobbies. When I can, I enjoy reading manga comics. I also love singing and I listen to music on my way to school. I only watch TV when there are interesting programmes on. I think sport is also very important if you want to be healthy so I also play tennis once a week. At weekends, I sometimes invite my friends to my home or I go to theirs: we really like making cakes together.

**ANTON**

I like doing a few things in my free time. I don't think my hobbies are that different from the ones other boys or girls have, though. I don't mind chatting online but I prefer watching TV series. I don't often read because it's boring. I love watching football on TV but I don't do much sport at the moment. I think I might start swimming again. My mum says young people should do exercise to keep fit.

**GARY**

In my free time, I like doing things that nobody else my age does. I love food so I spend most weekends cooking with my grandmother. I also like walking in the countryside by myself and taking photos. I don't have a smartphone so I can only call my friends. I think most TV is awful, so I never watch it. In my opinion there are better ways to spend your free time!
