Choose the correct answer:

Digit	Number	Numeral form
Eighty-four	seven	60300
135	60300	6
6	Ten	Twenty

2 Create from the set of numbers **2 , 0 , 8 , 4 , 6** :

a the greatest number   is ....

b the smallest number is ....

3 Write the numbers on the place value card :

a **The number :** 153 millions , 8461   (153008461)

Millions			Thousands			Ones		
Hundreds	Tens	Ones	Hundreds	Tens	Ones	Hundreds	Tens	Ones

4 In each numeral form , determine the digit as required :

234 568

a Tens place   is ....

b Hundred thousands place is ....

c Thousands place   is ....

63 574 192

a Ten thousands place   is ....

b Millions place   is ....

c Ten millions place is ....

5 Use the number **9157346842** to complete the following :

a The digit that in the hundreds place is _____

b The digit that in the ten millions place is _____

c The digit that in the milliards place is _____

d The digit that in the tens place is _____

e The digit that in the hundred thousands place is _____

6 Note and complete as the **Ex** :

Number	Place value of 5	Value of 5
7 111 000 656	**Tens**	**50**
7 111 000 665	....	....
7 111 500 666	....	....
7 115 000 666	....	....
5 111 000 666	....	....

From the above we find that

The new number value = The value of the number in the previous place ×10

7 Find the value of the digit **7** when it moves in the place value card :

a The value of the digit in the ones place is _____

b The value of the digit in the tens place is _____

c The value of the digit in the ten thousands place is _____

d The value of the digit in the millions place is _____

e The value of the digit in the hundred millions place is _____

f The value of the digit in the milliard place is _____
