

## 7. Can You See the Pattern?

### Math Worksheet - 4

Name:

Class: V

I. You will get numbers in each  $\square$  by multiplying the numbers on both side of the box.

<input type="text"/>	<input type="text" value="7"/>	<input type="text" value="77"/>
<input type="text"/>	<input type="text" value="13"/>	<input type="text" value="11"/>
<input type="text"/>		<input type="text"/>
<input type="text"/>	<input type="text" value="5"/>	<input type="text" value="4"/>
<input type="text"/>	<input type="text" value="15"/>	<input type="text"/>

II. Magic square:

Fill this square using all the numbers from 46 to 54.

The total of each line is 150.

		<input type="text" value="49"/>
<input type="text" value="46"/>		
	<input type="text" value="52"/>	<input type="text" value="47"/>
