A few years ago you could drive to the centre of an American town, look at what was in the shops, get help from a shop assistant, and pay for things with *cash / sales*. They prefer to *spend / cash* their money in big supermarkets or *sales / shopping centres*, or they shop from home.

Now people do more and more shopping *centres / online*. In 2012, it was 22% of food shopping and 37% of shopping for clothes, but every year it's more. Around 71% of American men and 66% of American women shop on the internet. It's very easy to find big *cash / discounts* and save money.
