

# PERSONALITY AND FEELINGS

**Feelings** are something that we feel from within or inside ourselves. Feelings never remain the same for too long, they keep changing. There are different kinds of feelings that we experience. Sometimes we feel happy, sad, worried, lonely and so much more.

**Personality** can be defined as a given person's characteristic thoughts, feelings, and behaviors. We often think of personality in terms of various traits, or typical ways of thinking, behaving, and feeling.

Watch this video about feelings to help you out to understand more about them.
