 Lisa is good at knitting.

Read the text below. Match the questions (A—F) with the passages (1—4). There are two questions you do not need to use.

- A What do I do if a friend tells me that he or she is in an abusive relationship?
- B Why are some people violent?
- C My friend is angry if I hang out with other people, what should I do?
- D What relationship can be called healthy?
- E What are unhealthy relationships?
- F How do I get out of an unhealthy or abusive relationship?

### SAFETY IN RELATIONSHIPS

In your life, you will have relationships with a lot of people. Here are the answers to the most commonly asked questions about relationships.

1) In good relationships, you and your friend feel happy about each other, you are sincere and honest. You have common hobbies and interests, like going out together or with other friends, and enjoy each other's company. These relationships can last for a long time. Healthy relationships are fun for both people!

2) Be honest and stick to your decision. Tell your friend you like spending time with him or her but that you also want to spend time with other friends and family.

3) In a risky relationship, you and your friend do not usually feel good about each other and yourselves. You may feel afraid or pressured to do something that you don't want to do. If you feel uncomfortable in your relations or your friend hurts you, makes all the decisions, tells you what to do, tries to embarrass you in front of other people, then you should stop these relations as quickly as possible.

4) First, if you think that you are in a risky relationship, you should talk to a parent, friend, teacher, coach or other trusted person about your relationship. With help, you can get out of an unhealthy relationship. Remember: you deserve to be in a relationship that is healthy and fun.
