

Name : _____

Score : _____

Teacher : _____

Date : _____

Find the Missing Factors.

1) $2 \times \underline{\quad} = 20$

2) $\underline{\quad} \times 4 = 24$

3) $\underline{\quad} \times 10 = 70$

4) $132 = 11 \times \underline{\quad}$

5) $36 = \underline{\quad} \times 4$

6) $4 \times \underline{\quad} = 32$

7) $60 = 6 \times \underline{\quad}$

8) $11 \times \underline{\quad} = 55$

9) $9 \times \underline{\quad} = 18$

10) $\underline{\quad} \times 9 = 27$

11) $16 = \underline{\quad} \times 4$

12) $72 = 12 \times \underline{\quad}$

13) $80 = 10 \times \underline{\quad}$

14) $8 = 4 \times \underline{\quad}$

15) $\underline{\quad} \times 12 = 132$

16) $80 = \underline{\quad} \times 8$

17) $\underline{\quad} \times 3 = 30$

18) $32 = \underline{\quad} \times 4$

19) $20 = \underline{\quad} \times 4$

20) $15 = 3 \times \underline{\quad}$

21) $24 = 12 \times \underline{\quad}$

22) $6 \times \underline{\quad} = 66$

23) $45 = 9 \times \underline{\quad}$

24) $60 = \underline{\quad} \times 5$

25) $36 = \underline{\quad} \times 3$

26) $\underline{\quad} \times 9 = 72$

27) $6 \times \underline{\quad} = 60$

28) $10 \times \underline{\quad} = 50$

29) $\underline{\quad} \times 8 = 32$

30) $\underline{\quad} \times 2 = 20$
