

Plants

Name _____ Date _____

1 Put in the correct place.

bush

grass

tree

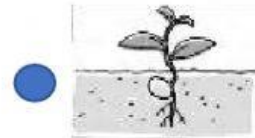

2 Match.

Plants:

Reproduce

Grow

Are born

3 Unscramble and write what plants need.

glinsuht

rai

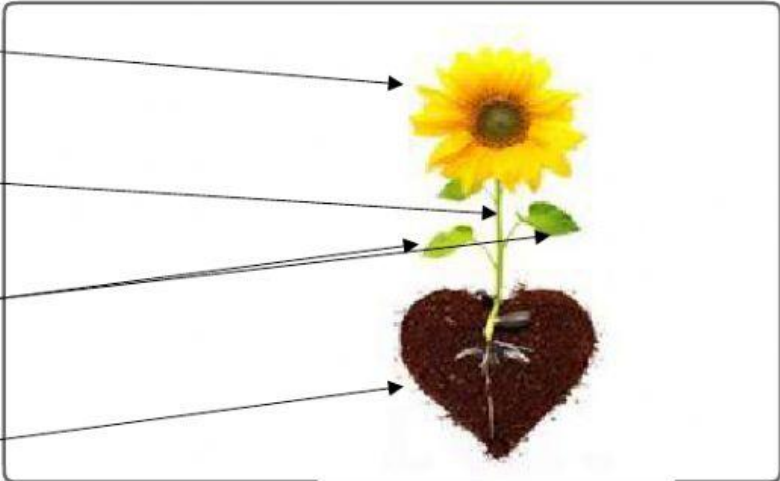

awter

oils

The image shows a tree on the right bank of a body of water. The sun is low in the sky, creating a bright reflection on the water's surface. Lines connect the scrambled words to parts of the scene: 'glinsuht' points to the sun, 'rai' points to the sky, 'awter' points to the water, and 'oils' points to the tree.

4 Label the part of the plant

The image shows a sunflower plant growing out of a heart-shaped mound of soil. Four lines point from empty rectangular boxes on the left to different parts of the plant: the top box points to the flower head, the second box points to a leaf, the third box points to the stem, and the bottom box points to the roots in the soil.

4 What do plants give us? Write:

Food - furniture - decoration
