

JOB DESCRIPTION

You would have learned that a job description lists the official title of the job and the main features of said job. It can also include must-have skills, qualifications needed, salary, and who the position reports to, just to name a few. Use the information below along with previous knowledge to create three job descriptions. Select the correct salary and Title then drag and drop the information for qualifications and responsibilities.

Title: _____

Salary: _____

Qualifications: _____

Responsibilities: _____

Title: _____
