Numbers 1-5

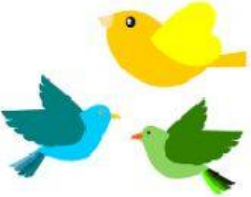

1. Listen and choose the number.

|                                                                                     |   |   |   |
|-------------------------------------------------------------------------------------|---|---|---|
|    | 4 | 1 | 2 |
|    | 3 | 5 | 4 |
|   | 1 | 3 | 2 |
|  | 5 | 4 | 1 |
|  | 2 | 3 | 5 |

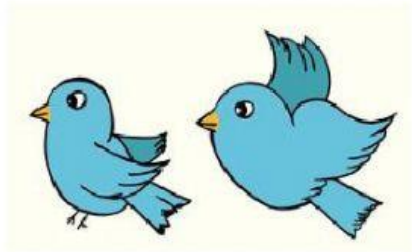

2. Put the numbers in order.

|   |   |   |   |   |
|---|---|---|---|---|
| 2 | 5 | 3 | 4 | 1 |
|   |   |   |   |   |
|   |   |   |   |   |

3. Count and choose the number.

|                                                                                     |                                                                                     |                                                                                       |                                                                                       |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
|    |    |    |    |
|    |    |    |    |
|  |  |  |  |
|  |  |  |  |

4. Read the number. Count the objects and choose the correct picture.

|                                                                                     |                                                                                     |                                                                                       |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
|    |    |    |
|    |    |    |
