## V/ Choose the word that best fits the blank in the following passage.

Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative. However, many people don't approve of using nuclear power because it is very dangerous. What would happen if there were a serious nuclear accident? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economically as possible.

(alternative (adj) thay thế      nuclear (adj) thuộc nguyên tử      radioactivity (n) tính phóng xạ)

## VI/ Read the following passage then answer the questions.

## WORKING FOR AN AIRLINE

Nicola Peet left school at eighteen, went to college and then worked to a local airport. After nine months, she went to work for Saudi Arabian Airlines and then she joined British Airways as an air-hostess. Four years later, she got her present job as a manager. This is what she told us about her job: "My office is at Heathrow Airport, but I spend 60% of my time in the air, I teach air-hostesses and help them with any problems. I also go to lots of meetings. My hours are usually from 8 am but sometimes I work from 1pm to 9pm. At work, the first thing I do is check plan time on my computer and then I speak with some of the air – hostesses. Sometimes I go on long flights to check how the air-hostesses are doing. That's my favorite part of jobs, but I like office work, too. Travelling can be a hard work. When I get back from a long journey, all I can do is eating something and then going to bed. I don't earn much money but I'm happy with British Airway and want to stay there and continue to travel"
