

LibreCAD KEY WORD VOCABULARY part1

1	Read the definition and choose the correct word.	to draw /drö/	to snap	to modify
	to change something			
		dibujar	fijar, posicionar	modificar
2	Read the definition and choose the correct word.	to draw /drö/	to snap	to modify
	to make a picture of something or someone with a pencil or pen			
		dibujar	fijar, posicionar	modificar
3	Read the definition and choose the correct word.	to draw /drö/	to snap	to modify
	to move (something) or change <u>into</u> a new position			
		dibujar	fijar, posicionar	modificar
4	Read the definition and choose the correct word.	line /lain/	point	circle /serkol/
	a continuous curved line, the points of which are always the same distance away from a fixed central point			
		línea	punto	círculo
5	Read the definition and choose the correct word.	line /lain/	point	circle /serkol/
	a long , thin mark on the surface of something			
		línea	punto	círculo
6	Read the definition and choose the correct word.	line /lain/	point	circle /serkol/
	a small , round mark			
		línea	punto	círculo
7	Read the definition and choose the correct word.	square /sküe/	curve	angle /angol/
	the space between two lines or surfaces at the point at which they touch each other, measured in degrees .			
		cuadrado	curva	ángulo

8	Read the definition and choose the correct word.	square /sküe/	curve	angle /angol/
	a line that bends continuously and has no straight parts			
		cuadrado	curva	ángulo
9	Read the definition and choose the correct word.	square /sküe/	curve	angle /angol/
	a flat shape with four sides of equal length and four angles of 90°			
		cuadrado	curva	ángulo
10	Read the definition and choose the correct word.	dimension	continuous line	straight line /streit/
	a measurement of something in a particular direction, especially its height, length, or width			
		dimensión	línea continua	línea recta
11	Read the definition and choose the correct word.	dimension	continuous line	straight line /streit/
	a line without a pause or interruption			
		dimensión	línea continua	línea recta
12	Read the definition and choose the correct word.	dimension	continuous line	straight line /streit/
	continuing line in one direction without bending or curving			
		dimensión	línea continua	línea recta
13	Read the definition and choose the correct word.	dash line	dash dot line	parallel lines /paralel/
	line next to another at a constant distance. When you draw these lines , one never crosses the other.			
		línea de rayas	línea punto raya	líneas paralelas
14	Read the definition and choose the correct word.	dash line	dash dot line	parallel lines /paralel/
	a line made of short, horizontal marks			
		línea de rayas	línea punto raya	líneas paralelas

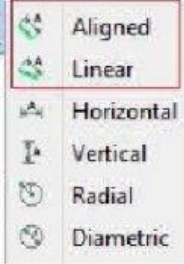

15	Read the definition and choose the correct word.	dash line	dash dot line	parallel lines /paralel/
	a line made of short, horizontal marks and round point ones			
		línea discontinua	línea punto raya	líneas paralelas

16	Read the definition and choose the correct word.	parallel lines /paralel/	perpendicular lines /perpendikula/	straight line /streit/
	at an angle of 90° to another line or surface			
		líneas paralelas	líneas perpendiculares	línea recta

17	Read the definition and choose the correct word.	TOOLS MENU	CIRCLES MENU	LINES MENU
	This menu is used to choose the main tools of the program.	 Line  Circle  Curve  Ellipse  Polyline  Select  Dimension  Modify  Info	  Center, Point  2 Points  2 Points, Radius  3 Points  Center, Radius	  2 Points  Angle  Horizontal  Vertical  Rectangle

18	Read the definition and choose the correct word.	TOOLS MENU	CIRCLES MENU	LINES MENU
	This menu is used to draw lots of different circles.	 Line  Circle  Curve  Ellipse  Polyline  Select  Dimension  Modify  Info	  Center, Point  2 Points  2 Points, Radius  3 Points  Center, Radius	  2 Points  Angle  Horizontal  Vertical  Rectangle

19	Read the definition and choose the correct word.	TOOLS MENU	CIRCLES MENU	LINES MENU
	This menu is used to draw lots of different lines.	 Line  Circle  Curve  Ellipse  Polyline  Select  Dimension  Modify  Info	  Center, Point  2 Points  2 Points, Radius  3 Points  Center, Radius	  2 Points  Angle  Horizontal  Vertical  Rectangle

20	Read the definition and choose the correct word. <i>This menu is used to measure the dimensions of the drawings.</i>	 	 	 
21	Read the definition and choose the correct word. <i>This menu helps to find, or snap, specific points in a drawing.</i>	 	 	 
22	Read the definition and choose the correct word. <i>This menu helps to select parts of a draw or many drawings.</i>	 	 	 
23	Read the definition and choose the correct word. <i>This menu helps to change or modify the appearance of a drawings.</i>
