5. Finding the film _____, we left the cinema early. (INTEREST)

Part 4 READING COMPREHENSION

1. Read the following passage and decide whether each of the statements 1-5 is TRUE or FALSE. (5 points)

Robots have played an important role in space exploration due to the dangerous nature of the work. Before robots are sent to the space, animals like monkeys or dogs were often sent to help humans conduct experiments to explore the conditions on other planets. Since the robotic technology has flourished in recent decades, robots have been sent to the space instead to carry out those experiments and do other tasks. So far our knowledge about conditions on other planets such as Mars or Venus mostly comes from experiments performed by robots. The more the technology develops, the faster robots can reach those planets and the more information they can send back to the Earth.

1. Because space exploration is dangerous, robots are often used to replace humans. _____
2. Animals were sent to the space to help robots do their tasks. _____
3. Robots' tasks in space include creating the living conditions on other planets. _____
4. Most of the information about conditions on other planets is sent by robots. _____
5. If robots can reach other planets faster, the technology can also develop better. _____
