Sun is good for us because

Sun is not so good for us because

SUN SAFETY

Too much Sun isn't fun!

The Sun is very important for people. The Sun warms the planet. It gives us light. The Sun also gives us Vitamin D. Vitamin D is important for your bones and makes you strong.

But there's a problem. Too much Sun is bad for you. Sunburn is dangerous. It's bad for your skin. Too much Sun is bad for your eyes, too.

Are you going to go out in the Sun? Here are some tips for you:

- ☀ Don't go out and play at the hottest time of the day.
- ☀ When it's very hot, wear light colors like white or cream. Light colors are cooler than dark colors.
- ☀ Put a towel over your shoulders on the beach.
- ☀ Use sunblock when you go out in the Sun, and use a lot of it.
- ☀ Use sunglasses when it's bright and sunny.
- ☀ Wear a sun hat.

2 Circle T (true) or F (false).
