Two multiplication problems are shown on a grid. The first problem is 63246×6 . The second problem is 19843×7 . Both problems have a blue line under the bottom number.

			3	8	9	6	5		
					x	3	5		

			4	6	3	2	7		
					x	4	2		

The figure shows two 10x10 grids used for the 'Number of the Day' activity. Each grid has a top row for digits and a horizontal line for a tens bar. Below the line is a row for a ones bar. The left grid shows the number 6279 with a tens bar at 500 and a ones bar at 9. The right grid shows the number 26346 with a tens bar at 600 and a ones bar at 6.

The figure displays two 6x6 grids, each representing a sequence of numbers and its corresponding graph. The left grid contains the sequence 5, 4, 9, 7, 8, 3, 6, 7. The right grid contains the sequence 2, 8, 6, 3, 4, 4, 0, 1. Both graphs show a downward curve followed by an upward curve.
