

LISTENING COMPREHENSION: The pains of Mr. Payne

Listen to a conversation between a doctor and a patient and answer the questions.

1. What symptoms does the patient have?
2. What does he think might be wrong with him?
3. What does he think he needs?
4. What does the doctor suggest?

Listen to what the doctor and receptionist say after Mr. Payne has left. What do they think of him? Do you know the name for someone like this?
