Animal Families

Animals are all very different: an elephant is very big, a mouse is very small with a long tail and a giraffe is very tall with a long neck.

There are different kinds of animals and we can put these animals into families. There are birds which come from eggs and can fly. And some animals have bodies with shells on (1) _____ backs.

Animals eat a lot different things. A lion likes meat, a panda loves plants and leaves and a monkey (2) _____ fruit and vegetables. And they live in different places: bears like the mountains, tigers and snakes live in the jungle.

Then there are lizards and frogs (3) _____ live in lakes and rivers when they are young (4) _____ come out of the water when they are (5) _____. And there are fish that live in water all the time.

1.	A. our	B. his	C. their
2.	A. eats	B. eat	C. ate
3.	A. which	B. what	C. when
4.	A. because	B. but	C. or
5.	A. oldest	B. younger	C. older
