Student Worksheet

Basic Arithmetic

Name :

Class :

Choirunisa Fitri Fadilah
(2225200101)

REMEMBER!

Arithmatic is a branch of mathematics, where the basis of arithmetic operations is addition, subtraction, multiplication, and division. So, arithmetic functions are actually the simplest in mathematics.

Meanwhile, according to the Big Indonesian Dictionary, arithmetic is defined as the study of positive integers through addition, subtraction, multiplication, and division, as well as the use of the results in everyday life.

Addition

Addition is the addition of two numbers to a number that is the sum of the two numbers.

The addition operation is denoted by the + (plus) symbol.

Subtraction

Subtraction is the opposite of addition operation. Subtraction can be defined as the difference between two numbers.

The subtraction operation is denoted by the symbol – (less) symbol.

Multiplication

Multiplication can be denoted by the symbol x or the symbol (dot).

Division

Division is usually denoted by the symbol : (colon).
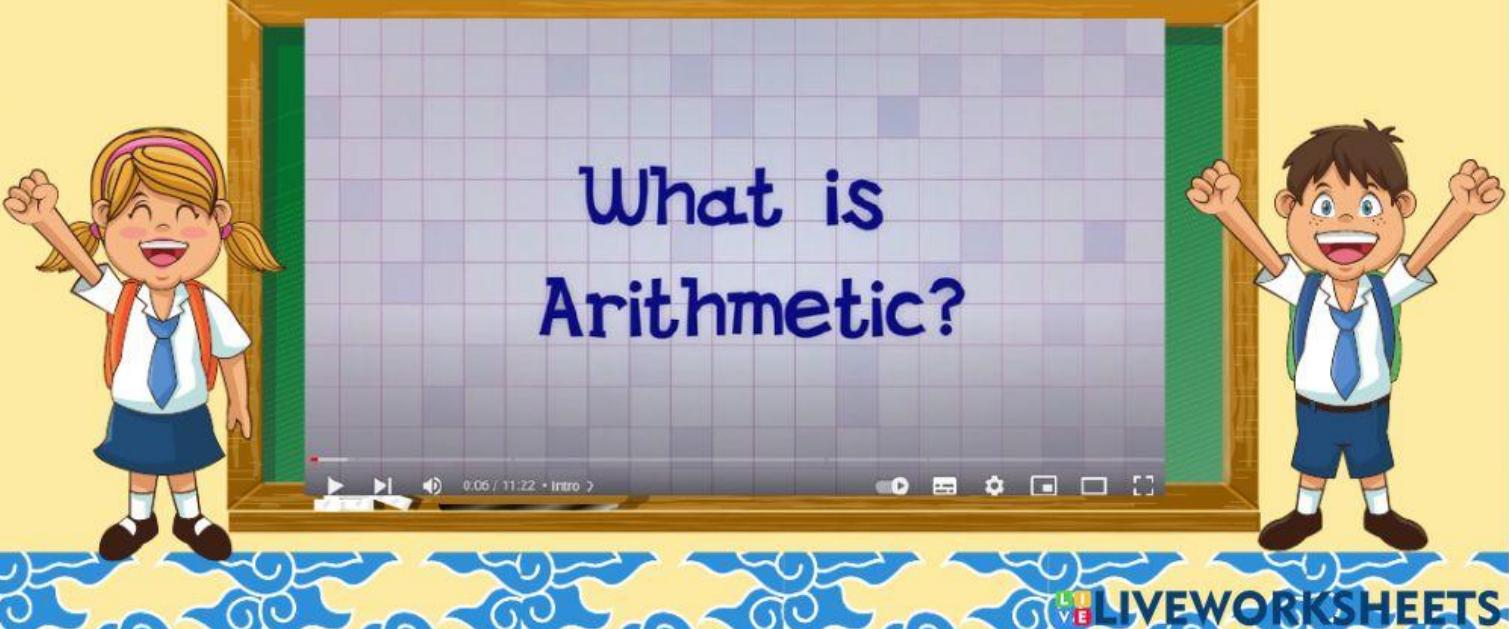

What is Arithmetic?

0:06 / 11:22 • Intro
