

Leo and technology

Hello, my name is Leo. I want to tell you what kind of technology I use every day in my life.

I usually use my computer to do my homework and while I do it, I love to use my wireless headphones. I use my headphones because one of my hobbies is listening to music. Other hobby that I have is fly my drone, I usually do it with my father because he likes to see the drone's camera with the virtual reality headset. When the night falls, we go to our house because we watch a movie with the projector that connected with our laptop. Sometimes, we love take photos with the digital camera of ourselves. Then, when I must go to class, my teacher uses an interactive whiteboard. I think it is very cool, because we can see videos or maybe do an online activity in it. The most awesome thing that we can do with that is touch and write something with our fingers! Finally, another cool thing that we have in our school is a 3D printer, but it is used only by the teacher. He tells us every day that the printer's material is expensive, so it must be used only by him. It's sad because it looks like a cool thing to use.

1. What does Leo use to do homework?
2. When does he use headphones?
3. Who flies a drone?
4. When do Leo and his father come back to home?
5. How do Leo's family watch a movie?
6. Where does Leo use an interactive whiteboard
7. Why doesn't he can use a 3D printer?
8. Who can use the 3D printer?
