Coping with money

Hi Jess,
How are you coping financially this term? My parents had to **bail** me last week cos I couldn't pay my fees; I'd **run** a huge amount of money without realising it. But they **coughed** without a protest. I guess I'll have to **work** the debt in the holidays. Expensive being a student, isn't it?
Freda

Hi Dave,
Just back from my trip to South America, which was fantastic, but it **set** me €5,000 and **cleaned** me completely. I was just wondering if you could lend me a couple of hundred euros? I'll **square** with you when I get my next pay cheque.
Robert

I can't believe my mobile phone bill. It **gobbles** a large part of my salary every month. And I've had so many other bills, I've had to **break** my savings and use money I'd put for the holidays.

I came some money recently. My great aunt died and left me a tidy sum and I got a big bonus at work last month, too, so the money's been **rolling**. I'm seriously considering buying a flat and renting it.

If your aim is to **put** money regularly, our monthly savings plan enables you to pay a regular sum your bank account each month.

Financial services

If you are unable to pay everything in the same month, we'll arrange for your payments to be **carried** to the next month.

What are the best ways of **ploughing** profits into a small business?
