Quiz 4: Reading

Choosing a City

1. Read the article. Choose the correct word to complete the sentences.

Istanbul, Turkey

Istanbul is a very unusual city—one part is in Europe, and the other part is in Asia. More than 14 million people live there! Visitors love Istanbul because it has many beautiful, old buildings, and the food is great. At night, the seafood restaurants are really popular. Most things in Istanbul are very affordable for visitors. Traffic is a problem in the city because the streets are old and there are too many cars. Istanbul also has subways, trains, and buses, and some people take boats to cross the sea from the European side and the Asian side. The weather is very good, especially in the summer, but in winter it's sometimes very cold.

Vancouver, Canada

Vancouver is one of the most beautiful cities in the world. It's near the mountains and the sea, and there are many great parks where you can walk, ride a bicycle, or just relax. The city has good public transportation, with buses and fast trains that go everywhere. More than 610,000 people live in Vancouver. It's a very clean city, and there's not much pollution. But it has two bad points—prices there are very high, and the weather is not always good. Vancouver is famous for rain! But there are

many good museums for those rainy days, and in the evening, the city has excellent restaurants and nightclubs to enjoy.
