The Loch Ness Monster

Monsters first _____ in stories over 2,500 years ago. 'Nessie' _____ the famous monster from Loch Ness, a lake in Scotland. The first written story about this monster dates back 1,500 years, when Saint Columba said that he saw a strange creature attack a man who _____ in the lake. The story was written down but the monster did not become famous until more modern times.

Many people have said that they _____ Nessie. The first big news story was in 1930. Three men on a boat trip _____ that they saw a monster. In 1933, George Spicer and his wife saw a strange animal cross the road in front of their car. It then _____ into the lake and swam away. In the same year, an excited man took the first photo of the monster. He saw the monster's tail and large body splashing in the water. In 1934, Arthur Grant saw Nessie just after midnight when he was riding his motorbike. In 1935, a doctor took a photo, which _____ a long neck and a small head sticking up out of the water. This became the best known photo of Nessie. Since that photo, many people _____ their own versions of Nessie, in fact, the photo _____ as an inspiration to imagine new monsters for more than 50 years.

There _____ many photos but none are clear. In 1987, scientists used sound equipment to search for Nessie. On the first day, they detected a large object, suggesting an animal larger than a shark but not as big as a whale. On the second and third day they found nothing. Experts believe it was a seal swimming along the River Ness to the loch. To this day, nobody _____ if the monster really exists but it continues to be a great story.
