

Exercise 2

Read the information. Then listen and complete the notes. Write **ONE WORD ONLY** for each answer.

For *note completion tasks*, articles (*a, an, the*) and auxiliary verbs (*be, do, have*) are not always included. Make sure that you check the word count in the instructions and only write the word or words that you hear.

It is also important to pay close attention to singular and plural forms of nouns. For example, if the correct answer is *treatments* and you write *treatment*, your answer will be marked incorrect. In the same way, if the correct answer is a singular noun, you must write the noun in its singular form and not in its plural form.
