

Exercise 5

Read the information. Then choose the most relevant and logically extended and supported endings for the sentences.

Examiners look for a clear central topic in each paragraph with relevant, logically extended and supported ideas. For example:

The road to the east of Sholeaton was widened, and a cycle lane and a pedestrian crossing were added, making the town more accessible.

1. Between 1985 and 2015, Sholeaton went through some substantial changes,
 - including the loss of its swimming pool, because people prefer walking to swimming.
 - including the extension of the park area to replace the swimming pool.

2. The café in the shopping area to the west of Sholeaton was flattened and replaced by a fountain,
 - and this in turn resulted in more trees being planted in the area to make it look greener.
 - which meant that more restaurants were built to accommodate the increase in people visiting Sholeaton.
3. In the east of Sholeaton, the bus station was torn down and replaced by a new shopping centre that
 - was an extension of the old one.
 - was given the lovely name Bluebell.
4. A cycle lane was introduced to the east of Sholeaton, along with a new bicycle park, which
 - are two good examples of ways in which the area became more cycle-friendly.
 - resulted in a dramatic increase in the number of people cycling to and from Sholeaton.
5. A pedestrian crossing was installed across the main road to the east of the town,
 - giving pedestrians better access to the park.
 - allowing pedestrians to cross the road more safely.
6. In contrast, the L-shaped shopping area to the west of the town was not altered in any way,
 - and neither was the car park to the southwest of the town.
 - in addition to the number of parking spaces available.
