Text 1

There are many simple things we can do to revent global warming. One of them is by choosing to buy local products rather than imported one, such as vegetables, fruits, and meat.

Local products can be obtained more easily, without the need for a long distribution chain. The more fuel is saved, the more global warming will be reduced. In addition, it also helps local farmers and ranchers.

You will also get fresh product than are good for health. Much healthier than eating frozen food or packaged products.

So, from now on start consume fresh local product to reduce global warming and made you more healthy.

Text 2

Everybody should change their way of life to reduce global warming. There are several things that we can do. One of them is by buying and consuming fresh local groceries as much as possible. It of course includes local vegetables, fruits, bread, etc.

Local groceries don't need much transportation to get it into the market. It of course means, the amount of carbon dioxide produced is less than the groceries from other region. Therefore, by buying local groceries we are helping reduce the amount of carbon dioxide produced.

Consuming fresh groceries instead of frozen ones are healthier for us. Furthermore, fresh food or groceries means no requirements for it to be freeze up. It means that no electricity is needed and saving energy means reducing carbon dioxide and money.

So, from now on we should consume fresh local groceries to reduce global warming.
