When I was little, I lived in a small wooden house in the countryside. My brothers and I used to go out every afternoon to gather wood for fire. It was our duty because it kept the house warm. My parents used to stay in the study on the second floor, and we stayed in the living room on the first floor. In the house we live in now, all the rooms are on one floor. We don't have to build a fire anymore because there is heating system in the house.
