PART 4 Reading Comprehension (15 questions)

Read the following passage. Write TRUE if the statement is true, FALSE if the statement is false, or NI if there is no information on this. (5 questions)

Customers want products that suit their needs and they want to be served immediately. 3D printing helps shorten their waiting time. Traditionally, designers design a new product, a model of which is produced to test its safety and usability. The process takes weeks before the design is put into production. Time has changed now. Designers do their work with CAD software, send their designs to be 3D printed and build functional prototypes. Miraculously, this process takes a few days, ten times faster than the traditional one. 3D printing promises a considerable increase in productivity and, thus, a boom in product variety.

Answers	True	False	Not given
26. Designers use 3D printers to design new products.	☐	☐	☐
27. A model is produced to see if it is safe for users.	☐	☐	☐
28. 3D printing helps improve a company's products.	☐	☐	☐
29. The traditional process costs more to produce a product.	☐	☐	☐
30. Customers don't want to wait for new products.	☐	☐	☐

Fill in each blank with ONE suitable word. (5 questions)
