I. Tick (✓) the correct column for rising or falling intonation.

Questions	Rising	Falling
1. Do you think that flying taxi will be available soon?		
2. When do they open the metro system?		
3. Is it possible for airplanes to fly without a pilot?		
4. Where can I learn to have a driver license?		
5. What does future motorbikes look like?		
6. Will public transportation use electric bus?		
7. Are you talking about driverless cars?		
8. How often do you cycle?		
9. Can scientists invent personal wings like a bird?		
10. How do solar-powered vehicles operate?		

II. Draw rising or falling arrows at the end of each question to show the correspond intonation.

- What are the advantages of driverless cars?
- Can I use electric bicycle in a rain?
- Will we still have traffic jams in the sky?
- When does the project about future transport start?
- Who is the inventor of high-speed train?
- Is solar-powered engine applicable to all vehicles?
- Do you like wind-powered aircraft?
- Can you imagine pilotless helicopter?
- Is it true that electric vehicles are environmentally friendly?
- How big is a typical spaceship?

B. VOCABULARY AND GRAMMAR

I. Write the name of the means of transport under the pictures.

flying car jetpack teleporter Segway
hover scooter skytrain skycycling tube monowheel

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

II. Match means of transport with their definitions.

- | | |
|------------------|--|
| 1. flying car | a. a single-wheel vehicle similar to a unicycle, its rider sitting inside or next to the wheel |
| 2. teleporter | b. a board that travels above the surface of the ground, that you ride on in a standing position |
| 3. jetpack | c. a two-wheeled self-balancing electric vehicle, ridden while standing up |
| 4. hover scooter | d. a type of air vehicle that provides transportation by both ground and air |
| 5. monowheel | e. a device that is used to move somebody immediately from one place to another a distance away |
| 6. Segway | f. a device that somebody wears on their shoulders like a back pack that enables them to fly |

III. Complete the sentences with the words from the box.

FB: <https://www.facebook.com/beyondenglishvt>

IX. Write the correct possessive adjective or pronoun for these sentences.

1. This dessert is _____ but you can have it. (I)
2. _____ car is so dirty I can't even tell what color it is. (you)
3. The cat is in a good mood. It's just had _____ breakfast. (it)
4. Mark and I did _____ homework, but Jennifer didn't do _____. (we/ she)
5. It wasn't _____ mistake, it was _____ for getting the food order wrong. (I/ they)

6. She gave him _____ telephone number, and he gave her _____. (she/ he)
7. I think _____ garden is bigger than _____. (they/ we)
8. Is she a friend of _____? ~ No. She is a cousin of _____. (you/ I)
9. _____ car wasn't working, so he used _____. (he/ she)
10. _____ computer needs to be fixed, but _____ is working. (I/ he)

X. Choose the correct answers.

1. Jane has already eaten her lunch, but I'm saving _____ until later.
a. ours b. hers c. yours d. mine
2. _____ home is located downtown, so it's close to my work.
a. Mine b. Ours c. Our d. We
3. Her friend says it's _____, but I think it belongs to them.
a. her b. his c. our d. theirs
4. These suitcases belong to you and your wife. These suitcases are _____.
a. yours b. your's c. hers d. ours
5. The teacher told the children to open _____ books.
a. their b. theirs c. their's d. his
6. I'd like you to meet Rita. She's a great friend of _____.
a. us b. our c. ours d. me
7. The house is big, but _____ windows are small.
a. it b. its c. it's d. their
8. Sue fell down the stairs and broke _____ leg.
a. her b. hers c. its d. his
9. Your travel plans sound just as exciting as _____!
a. I b. me c. my d. mine
10. The mother cat and _____ kittens were napping in the sunshine.
a. his b. it's c. her d. hers

XI. Rewrite each sentence so that it contains the word in capitals.

1. Harry is one of my friends. MINE

2. That idea was theirs. THEIR

3. This house belongs to us. OURS

4. This is my pencil, but where's the one that belongs to you? YOURS

5. She is talking to one of her neighbors. HERS

6. The red car is his. HIS

7. Do they own that house? THEIRS

8. That cup is yours. YOUR

XII. Fill in each blank with an appropriate preposition.

- In the future, most people will travel _____ their flying cars.
- I'm on my way, I just got _____ the taxi.
- Last week we went to Vung Tau _____ a ferry. It was wonderful.
- Going _____ foot is good for your health.
- I like reading books when I'm _____ the bus.
- In ancient times, people usually travelled _____ horse.
- They are living _____ a van full time and travelling around the country.
- When I was young I went to school _____ school bus.
- Sorry, I can't call you - I'm _____ a plane!
- She asked for a ride _____ my motorcycle.

C. SPEAKING

- I. Complete the conversation with the sentences from the box. Write the letters of the sentences (A - F).

- A. Well, I think they will be a reality within 10 years or more.
- B. That means we can hope for human teleportation.
- C. Kind of, but what I mentioned is called teleportation. Apparition requires magic, you know.
- D. Yes, sure. And there will be self-driving cars, flying cars, supertrains, hyperloops, hoverbikes, etc.
- E. You may need to think again. In 2016, Y. Wei proposed that particles themselves could teleport from one place to another.
- F. Do you believe that someday humans can travel from one place to another without using means of transportation?

Janet: (1) _____

Justin: Is it like Apparition in Harry Potter?

Janet: (2) _____

Justin: Haha ... I know. Anyway, I don't think scientists can find ways to teleport things and humans.

Hyperloop – Transportation of Tomorrow

Hyperloop, as the name suggests, is a sealed tube or system of tubes (1) _____ which a pod may travel free of air resistance or friction carrying people or objects at (2) _____ speed. Hyperloop would allow passengers to travel at a top speed of 600 miles per hour, which is more than (3) _____ the highest speed of the fastest train while being independent from weather conditions, and producing zero (4) _____.

Tesla and Hyperloop One are two of the biggest companies that are (5) _____ Hyperloop. Tesla has also built a 500-meter test track in Nevada. But there are many challenges in the development of Hyperloop, including the thorough task of building a (6) _____ tube over hundreds of miles of land and investing billions of dollars. Other than that, the Hyperloop must travel only in a straight (7) _____ so passengers don't fall ill. Getting environmental and other clearances for the purpose of hyperloop is a (8) _____ task and a lot of people assume it to be overblown and extravagant.

II. Read the passage carefully, then choose the correct answers.

Right now, a private company is developing something called ET3. ET3 stands for Evacuated Tube Transport Technology.

The ET3 system would reportedly be able to take passengers from New York to Beijing in just two hours. Here is how it works. A vacuum tube goes all the way from New York to Beijing. The tube is only a few meters wide. Capsules move through the tube. Six people can sit in one capsule. The capsules use electricity instead of gasoline. For international travel, the capsules can travel at about 6,500 kilometers per hour. That is much faster than an airplane!

So how can these capsules travel so fast? The answer is that there is no air inside the tube. When airplanes fly, they have to move through the air. The air resistance slows the airplanes down. Because there is no air in the ET3 tubes, the capsules are able to move at a very high speed. Besides, the capsules are quite light. They only weigh 183 kilograms.

Of course, ET3 doesn't exist yet. Developers still have to solve a lot of problems. The biggest problem is that right now, ET3 would be far too expensive. In order to make ET3 cheaper, we will need much better technology. Maybe someday, you will be able to have lunch in New York and dinner in Beijing.

1. Why is ET3 clean?
 - a. It is made of a clean kind of material.
 - b. It uses a cleaner kind of gasoline.
 - c. It doesn't use gasoline or electricity.
 - d. It uses electricity.
2. The word "works" in paragraph 2 is closest in meaning to _____.
 - a. travels
 - b. operates
 - c. earns money
 - d. succeeds
3. All of the following are factors that make ET3 travel fast EXCEPT _____.
 - a. there is no air inside the tube
 - b. the capsule is quite light
 - c. traveling takes place in the air
 - d. there is no air resistance during the trip
4. What is a problem with ET3?
 - a. It is far too expensive.
 - b. We don't know how to build its capsules.
 - c. It is far too loud.
 - d. Most people don't want to use it.
5. According to the passage, which statement is NOT true?
 - a. There is no air in the ET3 tubes.
 - b. Each ET3 capsule can carry up to six people.
