Visual aids for subtraction: The first problem (95 - 27) shows a vertical column of 10 yellow bars representing 95. A red arrow points to a second column where 2 bars are crossed out (representing 20) and 7 bars are crossed out (representing 7), leaving 73 bars remaining. The second problem (81 - 64) shows a vertical column of 10 yellow bars representing 81. A red arrow points to a second column where 6 bars are crossed out (representing 60) and 4 bars are crossed out (representing 4), leaving 21 bars remaining.

$$\begin{array}{r} 52 \\ - 33 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 66 \\ - 29 \\ \hline \\ \hline \end{array}$$

GENIAL NENES I NENS!
BONA FEINA :)
