Exercise 3A

Read the article and select the correct answers.

DO YOU THINK YOUR COMMUTE IS BAD? TRY 640 KILOMETRES A DAY!

Do you think gas* prices are too high? Well, be happy that you aren't Jim Kendrick of Texas in the USA.

Every weekday, Kendrick drives 320 kilometres from his home in San Antonio, Texas, to his job at AbleCargo in the port of Houston ... and then 320 kilometres back again! He leaves work at 5a.m. and gets home and has dinner with his wife at 9p.m.

For his daily journey, Kendrick won the competition 'America's Longest Commute'. His three-and-a-half-hour commute was longer than all the other people in the competition, and is a lot more than the average American commute of twenty-five minutes.

'I was surprised to win,' said Kendrick, who won \$10,000.

'I was sure that someone else had a longer commute. But it's great – \$10,000 is just enough to buy gas for another year.'

Why does he do it? 'Well, my wife and I have a beautiful house in San Antonio and our lifestyle is important to us.'

'The drive gives me a lot of energy. Sometimes, when I drive my Ford Mustang down the highway, I feel like a professional racing car driver.'

How much longer does he want to do this commute? 'Another five or ten years,' Kendrick said. 'I don't see any reason to stop. But gas prices are high, so maybe I need to look for a job nearer home.'

*gas (American English) = petrol (British English)

- 1 A commute is ...
 - ☐ a type of transport.
 - ☐ the journey from home to work and back.
 - ☐ a part of a car.
- 2 Jim Kendrick won \$10,000 because ...
 - ☐ he was the safest driver in Texas.
 - ☐ he drove the most kilometres in one year.
 - ☐ he travelled the furthest to work.

Exercise 3B
