

Genotype and Phenotype Review II

Use the following traits to determine genotype and phenotype

Trait	Dominant	Allele	Recessive	Allele
Eye Color	Black	B	Brown	b
Hair Type	Straight	S	Curly	s
Lips	Thick	T	Thin	t
Nose	Long	L	Stubby	l

Give the genotype for the person below

1. Homozygous dominant straight hair
2. Homozygous recessive stubby nose
3. Brown eyes
4. Thin lips
5. Heterozygous hair type
6. Heterozygous eye color
7. Long nose
8. Homozygous recessive
9. Homozygous dominant eye color
10. Curly hair

Give the phenotype for the person below

11. Ll
12. SS
13. tt
14. BB
15. ll
16. Tt
17. Ss
18. bb
19. TT
20. LL
