

Underwater Photography

Hello! My name is Serena (0) but I love taking photos underwater. Underwater photography (9) allowing me to see the world from a completely different viewpoint. It is (10) an great way of creating fantastic pictures. I started doing this when I (11) is ten. My uncle showed me a picture of a turtle that he took while diving. It was beautiful so I (12) asks my uncle to take me along on his next trip. Soon after that, I went to Redang Island with (13) he. Now, I (14) had a collection of pictures showing 35 different underwater creatures. One of the biggest challenges for me is to (15) holding my breath underwater. I also need to stay still and take as many (16) photo as I can. However, I truly enjoy the experience. I think that everyone should try diving at least once in their lifetime.
