

8. FACTORIZA LOS SIGUIENTES POLINOMIOS

a) $x^3 + 2x^2 - x - 2 = (\quad) (\quad) (\quad)$

Three horizontal lines for working space, aligned with the vertical line of the equation above.

b) $x^4 + 3x^3 - x^2 - 3x = (\quad) (\quad) (\quad)$

Three horizontal lines for working space, aligned with the vertical line of the equation above.

c) $4x^4 - 64x^2 = (\quad) (\quad)$

d) $2x^4 - 5x^3 + 5x - 3 = (\quad)(\quad)(\quad)(\quad)$
